

# Prescription Mapping Service

---

## Boundary & Single Rate Rx

Service includes:

- Mapping service for 18 holes plus practice green
- Includes typical spray areas (i.e., tees, fairways, and putting greens)
- Exclusion and boundary area lines
- One rate per boundary area
- Boundary line data collected from on-site equipment
- Positional accuracy of boundary dependent on equipment receiver quality
- Typical resolution within 3-4"

Service Fees:

- 18-hole package fee = Please Contact us
- Additional services such as rate changes, boundary adjustments, and new boundaries billed hourly

Deliverables:

- High-resolution boundary maps in SHP file form
- KMZ file for easy viewing in Google™ Earth
- Full access to GIS and Spray Technologists during and after the package development

Benefits:

- Accurate control of spray areas and rates
- Increased productivity on spray day. Eliminates time driving boundary areas
- Decreases tire prints on turf
- More confidence for the spray job being executed correctly
- Allows for applications in dark conditions

***Precision means:***

- ***Better coverage***
- ***Minimized drift***
- ***Minimized carry over***
- ***Higher productivity***
- ***Chemical savings!***
